Subject: Maryland Department of Environment

Good Morning Paul,

I wanted to check in with you on MDE's expired GP. Since the MD CGP expiring on 12/31/2019 and MDE's inability to issue registration to new construction projects under the expired GP, do you have examples of any individual permits that have been written for new projects?

Feel free to give me a call if you would like to discuss. I have a discussion with one of our state partners tomorrow and would love your response as soon as you can.

Sincerely,
Michelle
